

ANGLE GEARS: Intelligent rationalisation efforts provide for radical price reductions

new!
Compact, well-priced as
aluminium cast casings

up to
- 60%

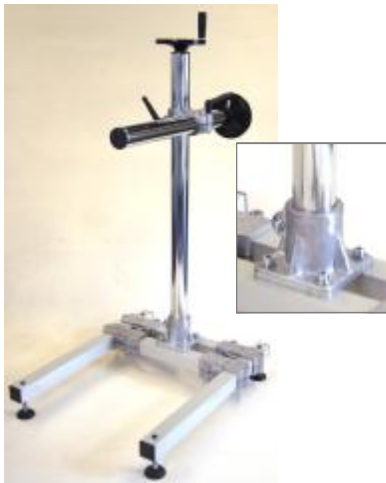

Shapely, anodic treated
aluminium blocks
manufactured from the solid

well-proven!
Robust, galvanised
steel construction

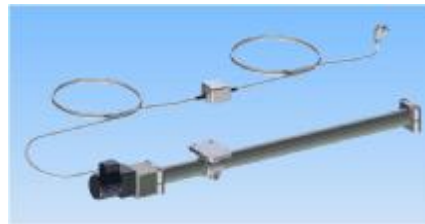

Please have a look at our new website:

www.inocon.de

Construction unit Ø60mm
for especially
stressed
assemblies

Here you really
get to know us !

Drives for linear units:
Electrical hand wheel,
as AC-gear-
or stepper-motor!

Square-tube
linear units:
for higher
torsion rigidity

I am especially interested in:

Construction unit Ø60mm for especially stressed assemblies

Sensor holders for sensors with Ø12mm, Ø18mm and Ø30mm

Square tube linear units for higher torsion rigidity

Angle gear for sideways assembly and free use of the tube endings

Telescope linear unit for travel adjustment without guide element

Sleeve clamps for an easy connection of tubes in diameters 40-50 mm & NEW 20-30 mm
